

Jet Analytics for Microsoft Dynamics 365 for Finance and Operations

Jet Analytics delivers full access to your Dynamics 365 for Finance and Operations data to quickly build financial reports and easily use Power BI for dashboards. Combine data from multiple sources, across any department in your company. Gain access to all of your data to make better decisions with fast, accurate, and easy-to-use reporting and analysis.

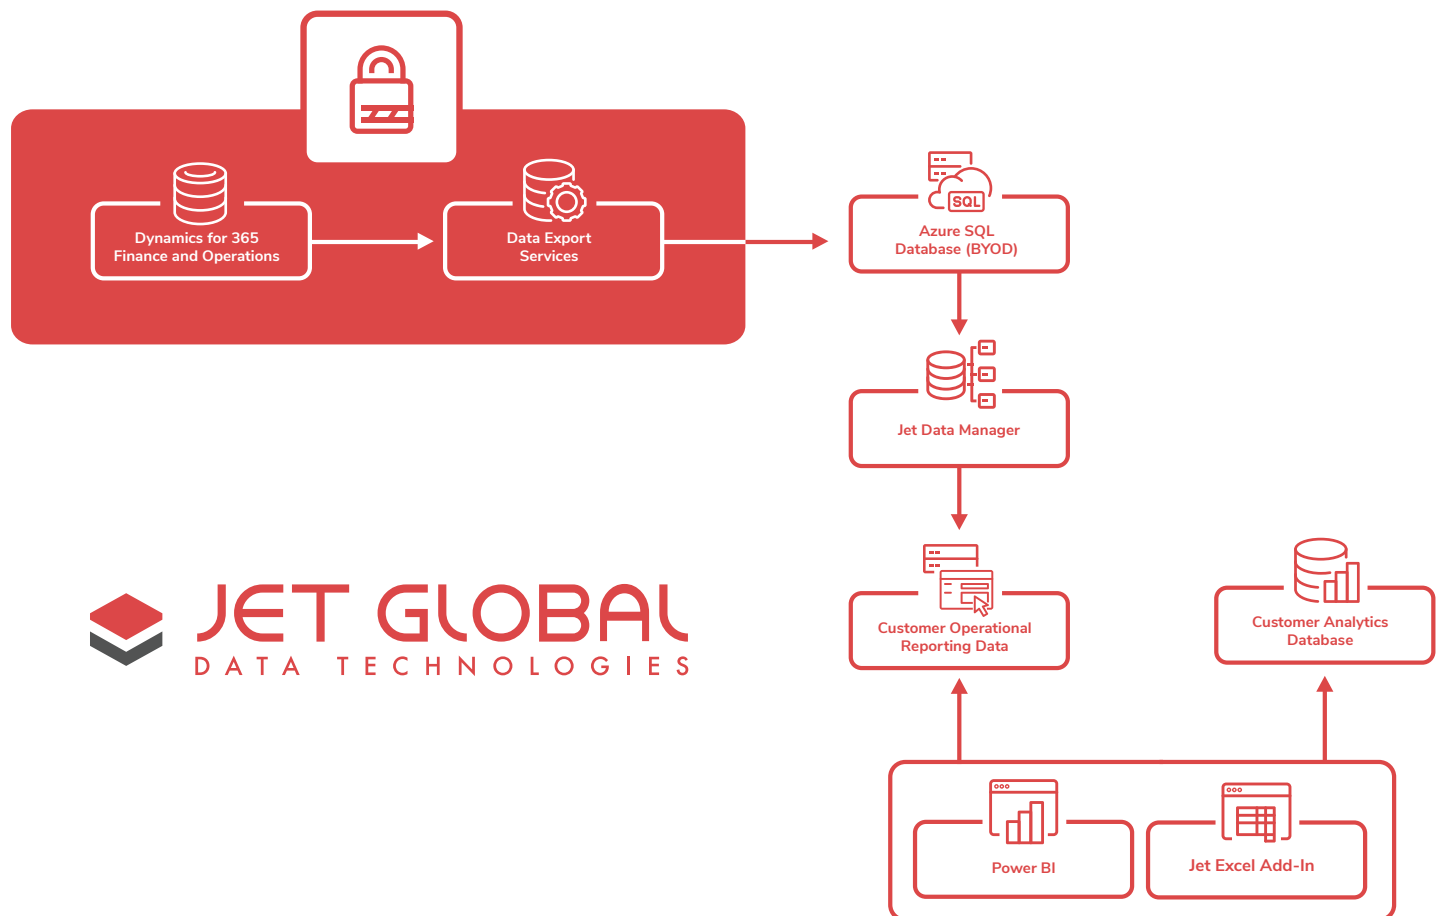

JET ANALYTICS SOLVES COMMON PROBLEMS WITH DYNAMICS 365 FOR FINANCE AND OPERATIONS:

- ▶ Report from any Dynamics 365 data in its current format - No need to convert data structures
- ▶ Fast reporting and analytics performance - No need to use slow technologies, such as OData
- ▶ All data environments are compatible - No need to reconfigure your IT infrastructure regardless of whether your data is on premise or hosted in the cloud

JET ANALYTICS SOLVES COMMON REPORTING AND BI OBSTACLES:

- ▶ Quickest way to make your data usable - No need to wait months for results; get up and running in hours
- ▶ The most cost effective solution on the market - Get faster results
- ▶ Easy to customize - Change the way you look at your data as your business needs evolve
- ▶ Provides advanced security for all your data - Dynamics 365, other ERP solutions, or any third party data sources

More than 14,200 companies rely on Jet Global as the answer to their business intelligence and reporting needs.
